

## X-ray Requirements for Blue Cross of Idaho Dental Services

The Blue Cross of Idaho X-ray guidelines listed below apply to most claims. To avoid the extra expense of submitting unneeded X-rays, please send dental X-rays with a dental claim only when Blue Cross requests or requires X-rays to process the claim.

### Procedures Requiring Pre-operative X-rays

CDT	Procedure
2510-2644	Inlays/Onlays
2710-2799	Multiple and anterior crowns (NOT needed for single posterior crowns).
2950-2952	Buildup/Post and Core with NO history of a root canal (NOT needed if history of root canal on same tooth).
2960-2962	Veneers
4249	Anterior crown lengthening (NOT needed for posterior crown lengthening).
6010-6199	Implants/Related Services
7210-7280	Surgical Extractions
6210-6793	Bridgework

- X-rays/Charting are NOT required for periodontal services.
