- List the name of your current program: \_\_\_\_\_
- Find the number that corresponds to your current program in the *Available Programs* list below and write it here: \_\_\_\_\_

### MEDICARE PART D CREDITABLE/NON-CREDITABLE

**Blue Cross of Idaho's Individual products are categorized as "creditable" or "non-creditable" for purposes of Medicare Part D. If you are a person nearing age 65 or an individual under 65 who is entitled to Medicare, the creditable/non-creditable information is important to you.**

When you become eligible for Medicare, you can enroll in Medicare Part D. If you do not sign up when first eligible, you may enroll during Medicare's Annual Enrollment Period.

If you do not sign up when first eligible and/or if you go 63 days or longer without prescription drug coverage that is creditable (at least as good as the standard Medicare prescription drug coverage), you may have to pay a higher monthly premium.

- The higher premium is based on the number of months you did not have creditable coverage.
- The penalty is 1% per month without creditable coverage. For instance, if you went 19 months without creditable coverage and then signed up for Medicare Part D, your premium would be 19% higher than the premium rate at the time you sign up.
